

Practitioner Profile Data Dictionary

Licensee Profile Master Table (All Professions)

licensee_profile.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to rbdpro:pro_cde
lic_id	integer	System defined numeric used to identify a license through the system. Used in combo with pro_cde to provide a unique identifier for the License table.
lic_nbr	integer	Current license number. Refers primarily to the number printed on the wall license. Existing wall license numbers are not necessarily unique even within a profession, and they are not identical to the identifier for most boards. This number will only change if the license is revoked and reissued for some reason. For duplicate licenses, the number will not change.
l_name	char(25)	Last name of the licensee.
f_name	char(15)	First name of the licensee.
m_name	char(16)	Middle name of the licensee.
name_suffix	char(8)	Suffix portion of the licensee's name.
ml_addr_line1	char(40)	Mailing Address - License Address Line 1
ml_addr_line2	char(30)	Mailing Address - License Address Line 2
ml_addr_city	char(20)	Mailing Address - City
ml_addr_state	char(2)	Mailing Address - State
ml_addr_zip	char(10)	Mailing Address
ml_cnty	smallint	Mailing Address - County
addr_line1	char(40)	Primary Practice Location - License Address Line 1
addr_line2	char(30)	Primary Practice Location - License Address Line 2
addr_city	char(20)	Primary Practice Location - City
addr_state	char(2)	Primary Practice Location - State
addr_zip	char(10)	Primary Practice Location - Zip Code
cnty	smallint	Primary Practice Location - County
pl2_addr_line1	char(40)	Additional Practice Location - License Address Line 1
pl2_addr_line2	char(30)	Additional Practice Location - License Address Line 2
pl2_addr_city	char(20)	Additional Practice Location - City
pl2_addr_state	char(2)	Additional Practice Location - State
pl2_addr_zip	char(10)	Additional Practice Location - Zip Code
pl2_cnty	smallint	Additional Practice Location - County
pl3_addr_line1	char(40)	2nd Additional Practice Location - License Address Line 1
pl3_addr_line3	char(30)	2nd Additional Practice Location - License Address Line 2
pl3_addr_state	char(2)	2nd Additional Practice Location - City
pl3_addr_city	char(20)	2nd Additional Practice Location - State
pl3_addr_zip	char(10)	2nd Additional Practice Location - Zip Code
pl3_cnty	smallint	2nd Additional Practice Location - County
lic_sta_cde	smallint	License Status Code
lic_actv_sta_cde	smallint	License Activity Status Code
lic_sta_desc	char(15)	License Status Description
lic_actv_sta_desc	char(15)	License Activity Status Description
rank_cde	varchar(4)	Rank code.
rank_desc	char(50)	Description of the Rank.
yr_began_practice	date	Year the licensee began practicing.
rank_efct_dte	date	Effective Date of the Rank.
expr_dte	date	Expiration date of license.

Practitioner Profile Data Dictionary

Profiling Professions Code Supplemental File

rbdpro.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Unique key of the profession.
pro_nme	char(30)	Name of the profession.
pro_lng_nme	char(75)	Long profession name used on formal documents.
pro_shrt_nme	varchar(10)	Prefix for printed license numbers.
cert_dte_ind	char	Certificate Date indicator "N" - use date when Certificate Number assigned, "P" - use certificate print date.
orig_dte_ind	char	Original Licensure Date indicator "A" - use application approval date, "C" - use Certificate Date, "E" - enter date.
lic_nbr_ind	char	License Number Indicator "L" - assign license number, "I" - use License ID, "C" - use Certificate Number.
lic_nbr_pfx	varchar(3)	Prefix for printed license numbers.
indv_org_ind	char	Individual/Organization Indicator I = Individual, O = Organization.
rnw_lead_day	smallint	Number of days prior to expiry of a license that a renewal notice must be sent.
rnw_cycl_typ	char	"A" = Calendar, Annual, "B" = Calendar, Biannual (Jan & Jun), "L" = Rank Month, "M" = Birthdate Month, "N" = Birthdate, "O" = Original License Date, "R" = Rank Date, "S" = Staggered, "Q" = Calendar, Quarterly
rnw_prd	smallint	Renewal period in months.
rnw_dte	datetime month to day	Annual renewal date (Month, Day). Used only with type "A" renewal cycles.
applc_dte_typ	char	Application Date Type: "E" = Entered, "S" = System date at time of entry.
brd_appl_ind	char	Yes/No Indicator: "Y" = An appeal of a decision to the Board is allowed by statute.
brd_appl_lmt	smallint	Number of days following a Board decision after which an appeal is no longer allowed.
insp_hst_purg	smallint	The number of years that inspection history information must be retained. (You cannot purge inspection history less than this number of years from the current date.)
rp_delay_day	smallint	Number of days following processing of fees by RP during which approval of the renewal application is delayed. This is used to allow time for entry of any name, address or other changes before printing the certificate. Mainly used in renewal processing.
fee_bsis_unit	char(5)	This is the unit of measure upon which calculation of fees are based (as in Number of Beds).
brd_cde	smallint	The board regulating this profession.

Profiling License Indicators Supplemental File

tp_lic_indicators.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to licensee_profile.
lic_id	integer	System defined numeric used to identify a license through the system.
health_degree	char	Y/N indicating if the licensee currently holds a degree in a health related profession other than the professional degree from question IIA of the questionnaire.
grad_med_edu	char	Y/N indicating if the licensee has had the responsibility for graduate medical education within the last 10 years.
prof_post_train	char	Y/N indicating if the licensee has completed any graduate medical education.
faculty_appoint	char	Y/N indicating if the licensee currently holds a faculty appointment at a medical/health related institution of higher learning.
staff_priv	char	Y/N indicating if the licensee currently holds staff privileges in a hospital/medical/health institution.
certification	char	Y/N indicating if the licensee holds a certification from any specialty board recognized by the Florida board regulating the profession for which they are licensed.
criminal_offense	char	Y/N indicating if the licensee has ever been convicted or found guilty, regardless of whether adjudication of guilt was withheld, or pled guilty or nolo contendere to a criminal misdemeanor or felony in any jurisdiction.
medicaid_pgrm	char	Y/N indicating if the licensee participates in the Medicaid program.
e_mail_addr	varchar(60)	The licensee's e-mail address.

Florida Counties Code & Descriptions Supplemental File

rbdcy.txt

Column Name	Column Type	Column Description
cnty	smallint	County Number.
cnty_desc	char(10)	County Name.
invsg_regn	smallint	Investigation Region.

Staff Privileges Supplemental File

tp_staff_priv.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to licensee_profile.
lic_id	integer	System defined numeric used to identify a license through the system.
rec_id	integer	Unique system assigned number. Combined with pro_cde and lic_id to form the primary key.
hospital_instit	varchar(60)	Name of the hospital/medical institution where staff privileges are held by the licensee.
city	varchar(60)	City where the hospital/medical institution is located.
state	varchar(60)	State where the hospital/medical institution is located.

Practitioner Profile Data Dictionary

Other State Licensure Supplemental File

tp_other_licensure.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to licensee_profile.
lic_id	integer	System defined numeric used to identify a license through the system.
rec_id	integer	Unique system assigned number. Combined with pro_cde and lic_id to form the primay key.
other_prof_lic	varchar(60)	Profession of other state licensure.
other_lic_state	varchar(60)	State name of other state licensure.

Education History Supplemental File

rbdled.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code.
lic_id	integer	License (file) id
atnd_frm_dte	date	Starting date of course attendance
atnd_to_dte	date	Ending date of course attendance
cmnt	text	Comment.
cmplt_ind	char	Course completed? (Y/N)
deg_cert_earn_cde	char(10)	Code for degree or certification earned
educ_mjr	char(30)	Education major
grad_dte	date	Date of graduation
hr_cmplt	smallint	Hours completed
inst_nme	char(30)	Educational Institution Name
pgm_desc	char(30)	Description of educational program taken

Other Health Related Degrees Supplemental File

tp_other_health_dg.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to licensee_profile.
lic_id	integer	System defined numeric used to identify a license through the system.
rec_id	integer	Unique system assigned number. Combined with pro_cde and lic_id to form the primay key.
school_name	varchar(60)	Name of the medical/pro fessional school from which a degree in a health related profession other than the professional degree was obtained.
city	varchar(60)	City where the medical/professional school is located.
state_or_country	varchar(60)	State or country where the medical/professional school is located.
attended_from	date	Date the licensee began attending the medical/professional school.
attended_to	date	Date the licensee no longer attended the medical/professional school.
degree_title	varchar(60)	Title of the degree awarded to the licensee.

Practitioner Profile Data Dictionary

Professional & Postgraduate Training Supplemental File

tp_prof_post_grad.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to licensee_profile.
lic_id	integer	System defined numeric used to identify a license through the system.
rec_id	integer	Unique system assigned number. Combined with pro_cde and lic_id to form the primay key.
prgrm_spclty_ar	varchar(60)	State name of other state licensure.
city	varchar(60)	City where graduate medical education occurred.
state_or_country	varchar(60)	State or country where graduate medical education occurred.
attend_from	date	Date the licensee began attending the graduate medical institution.
attend_to	date	Date the licensee no longer attended the graduate medical institution.
institute_name	varchar(60)	Medical training program name attended at the graduate medical institution.
program_type	varchar(60)	Program type (Internship, Residency, Fellowship, Other) for the graduate medical education.
other_spclty_ar	varchar(60)	Specialty area description for the "Other" program types of graduate medical education.

Faculty Appointments Supplemental File

tp_faculty_appt.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to licensee_profile.
lic_id	integer	System defined numeric used to identify a license through the system.
rec_id	integer	Unique system assigned number. Combined with pro_cde and lic_id to form the primay key.
faculty_title	varchar(60)	Faculty appointment title.
city	varchar(60)	City where faculty appointment is held.
fclty_appt_inst	varchar(60)	Institution name where faculty appointment is held.
state	varchar(60)	State where faculty appointment is held.

Certifications Supplemental File

tp_certifications.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to licensee_profile.
lic_id	integer	System defined numeric used to identify a license through the system.
rec_id	integer	Unique system assigned number. Combined with pro_cde and lic_id to form the primay key.
specialty_brd	varchar(60)	Specialty Board name.
specialty_cert	varchar(60)	Specialty Certification name.

Practitioner Profile Data Dictionary

Financial Responsibility Supplemental File

tp_financial_resp.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to licensee_profile.
lic_id	integer	System defined numeric used to identify a license through the system.
financial_resp	char(4)	Financial Responsibility code for hospital privileges.
financial_exempt	varchar(60)	Financial Exemption code.
liability_claim	char	Y/N indicating if the licensee has had a liability claim or action for damages for personal injury settled or finally adjudicated in an amount > \$5000 within the last 10 years.
insured	char	Y/N indicating if the licensee is covered by an insurer.
insured_10_yr	char	Y/N indicating if the licensee has been insured continuously during the last 10 years.

Criminal Offenses Supplemental File

tp_criminal_off.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to licensee_profile.
lic_id	integer	System defined numeric used to identify a license through the system.
rec_id	integer	Unique system assigned number. Combined with pro_cde and lic_id to form the primary key.
offense_desc	varchar(60)	Description of criminal offense.
offense_date	date	Date of the criminal offense.
jurisdiction	varchar(60)	Jurisdiction where criminal offense occurred.
under_appeal	char	Y/N indicating if the criminal offense is under appeal.

Disciplinary Actions Supplemental File

tp_disciplinary.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to rbdpro:pro_cde
lic_id	integer	System defined numeric used to identify a license through the system. Used in combo with pro_cde to provide a unique identifier for the License table.
rec_key	integer	Unique system assigned number. Combined with pro_cde and lic_id to form the primary key.
disc_body	varchar(60)	Agency, Entity, or Institution Name that issued the Disciplinary Action.
disc_type	varchar(60)	Indicator for type of disciplinary body (Agency, Institution, Entity).
disc_date	date	Date of disciplinary action.
disc_action_desc	varchar(60)	Description of disciplinary action taken against the licensee.
disc_viol_desc	varchar(60)	Description of violation.
under_appeal	char	Y/N indicating if disciplinary action is currently under appeal.
disc_action	char	Y/N indicating if licensee has had final disciplinary action taken against them.
punishable	char	Y/N indicating if the disciplinary action is punishable on the profile.

Practitioner Profile Data Dictionary

Special Disciplinary Actions Supplemental File

tp_spec_discipline.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to licensee_profile.
lic_id	integer	System defined numeric used to identify a license through the system.
rec_key	integer	Unique system assigned number. Combined with pro_cde and lic_id to form the primay key.
sp_disc_action	char	Description of disciplinary action taken against the licensee by a specialty board.
sp_disc_body	varchar(60)	Specialty board name issuing final disciplinary action against the licensee.
sp_disc_date	date	Date of the final disciplinary action.
sp_disc_viol_desc	varchar(60)	Description of the specialty board violation.
sp_disc_action_desc	varchar(60)	Description of the action against the licensee taken by the specialty board.
sp_disc_under_appeal	char	Y/N indicating if the disciplinary action is currently under appeal.

Final Disciplinary Actions Supplemental File

tp_ahca_discip.txt

Column Name	Column Type	Column Description
cse_nbr	integer	Case Number assigned by AHCA.
pro_cde	smallint	Profession code. FK to rbdpro:pro_cde
lic_id	integer	System defined numeric used to identify a license through the system. Used in combo with pro_cde to provide a unique identifier for the License table.
closed_date	date	Date that the case was closed by AHCA.
action_desc	char(30)	Description of disciplinary action taken against the licensee.
under_appeal_ind	char	Y/N indicating if the case is under appeal by the licensee.

Closed Liability Claims Supplemental File

tp_closed_claim.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to rbdpro:pro_cde
lic_id	integer	System defined numeric used to identify a license through the system.
rec_key	integer	Unique system assigned number. Combined with pro_cde and lic_id to form the primay key.
county	char(10)	County Name.
case_number	varchar	Case number.
incident_date	date	The date of the incident.
settlement_date	date	The date of the settlement.
settlement_amount	integer	The amount of the settlement.
policy_amount	integer	The amount of the insurance policy.

Practitioner Profile Data Dictionary

Committees/Memberships Supplemental File

tp_memberships.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to licensee_profile.
lic_id	integer	System defined numeric used to identify a license through the system.
rec_id	integer	Unique system assigned number. Combined with pro_cde and lic_id to form the primay key.
comm_member	varchar(60)	Name of the committee on which the licensee serves for a health entity with which they are affiliated.

Professional or Community Services Awards Supplemental File

tp_honors.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to licensee_profile.
lic_id	integer	System defined numeric used to identify a license through the system.
rec_id	integer	Unique system assigned number. Combined with pro_cde and lic_id to form the primay key.
honors_awards	varchar(60)	Professional or community service activity, honor, or award title.
organization	varchar(60)	Organization name issuing the professional or community service activity, honor, or award.

Publications Supplemental File

tp_publications.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to licensee_profile.
lic_id	integer	System defined numeric used to identify a license through the system.
rec_id	integer	Unique system assigned number. Combined with pro_cde and lic_id to form the primay key.
publication	varchar(60)	Publication name authored by the licensee in peer-reviewed medical literature within the previous 10 years.
article_title	varchar(60)	Article title.
date_of_pub	date	Date of publication.

Languages Other Than English Supplemental File

tp_languages.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to licensee_profile.
lic_id	integer	System defined numeric used to identify a license through the system.
rec_id	integer	Unique system assigned number. Combined with pro_cde and lic_id to form the primay key.
language_used	varchar(60)	Language, other than English used by the licensee to communicate with patients, and any translation service available for patients at the licensee's primary place of practice.

Practitioner Profile Data Dictionary

Other Affiliations Supplemental File

tp_affiliations.txt

Column Name	Column Type	Column Description
pro_cde	smallint	Profession code. FK to licensee_profile.
lic_id	integer	System defined numeric used to identify a license through the system.
rec_id	integer	Unique system assigned number. Combined with pro_cde and lic_id to form the primary key.
affiliation	varchar(60)	National, State, Local, County, or Professional Affiliation
